Korea Intellectual Property Service Center

Powers and Tools for Making Arbitration More Efficient

More efficiency in arbitration is an issue that has been increasingly discussed during the recent years. This joint conference will shed a light on different tools for increasing efficiency in arbitration and also deal with the extent and boundaries of arbitrator powers to tailor arbitral proceedings. The seminar will be held in the World Café format and the audience will therefore have the opportunity to take part in the discussions of the various topics under the guidance of experienced arbitration practitioners from Korea, Japan and Europe.
